

Printable ring sizing guide

Use this guide to help you decide which ring size to choose. For more accuracy, use a similar style ring and with a similar band width to the ring you wish to buy.

Step 1

Print this document out to 100% by ensuring page scaling is set to 'none' on your printing preferences on PC or by selecting the option print at 'actual size' on Mac. This guide must be printed on a full A4 size page. When printed, check one of the lines below.

Step 2

Place your ring band on the chart below and match the inner edge of the ring to the nearest size circle. If your ideal fit falls between two sizes, size up. Please note this chart measures to US / CA ring sizes and mm. Other scale sizes and conversions are available at www.lunajewelry.com
